SUMMARY

Motivated and quick-learning Computer Science graduate with a strong foundation in programming, web development, and problem-solving. Skilled in languages like JavaScript, Python, and C++, with hands-on experience in React.js, Node.js, and database management. Passionate about building efficient digital solutions and eager to contribute to a dynamic organization that values innovation, collaboration, and continuous learning.

WORK EXPERIENCE

AICTE – Shell India – Edunet Foundation

Jul 2025 – Aug 2025

Worked on data analysis and AI concepts under the Skills4Future program, focusing on sustainable and green technologies. Gained practical experience in data handling, visualization, and applying AI for real-world problem-solving.

PROJECTS

LedgerLite

[Link to Demo](#)

Developed a full-stack finance management system using MongoDB, Express.js, React.js, Node.js, Vite, and Tailwind CSS. The application enables users to record, manage, and monitor financial transactions seamlessly with secure authentication and role-based access control. Integrated RESTful APIs with MongoDB for real-time data updates and implemented interactive dashboards for income–expense analysis through dynamic visualizations. Focused on optimizing frontend performance with React and Vite while ensuring a fully responsive interface using Tailwind CSS. The complete solution was deployed on Vercel, efficiently managing both frontend and backend services for a smooth user experience.

Fixify

[Link to Demo](#)

Developed a full-stack service booking web application using the MERN stack—MongoDB, Express.js, React.js, and Node.js—with Tailwind CSS for a modern, responsive UI. The platform connects users with verified service providers for home repairs and maintenance. Implemented secure authentication, real-time booking management, and integrated Razorpay for seamless online payments. Designed an intuitive dashboard for tracking service requests, payments, and provider details. Optimized both frontend and backend performance and deployed the complete solution on Vercel, ensuring reliability and smooth user interaction..

EDUCATION

2022 - 2026	B.Tech (IT) at Buddha Institute of Technology	(GPA: 8.0/10.0)
2021	Class 12th from Carmel School(ICSE)	(7.8/10)
2019	Class 10th from Carmel School(ICSE)	(8.4/10)

SKILLS

Programming Languages	Java, JavaScript
Web Development	MERN Stack (MongoDB, Express.js, React.js, Node.js), Vite, Tailwind CSS, RESTful APIs
Database & Tools	MongoDB, Mongoose, Git, GitHub, Postman, Vercel, VS Code
Soft Skills	Problem Solving, Communication, Team Collaboration, Adaptability, Time Management, Critical Thinking
